WHY ARE APRIL SKYY HOME HEALTH'S CLINICAL OUTCOMES SO HIGH?

Evidence-Based Clinical Best Practices

Best Practices are clinical policies and procedures that are proven to help patients achieve improved clinical and rehabilitation outcomes in a timely manner. April Skyy Home Health constantly updates its care protocols to assure that patients are receiving the most current and proven procedures that help patients get better, faster.

Real-Time Monitoring of Patient Progress

Our electronic documentation system monitors patient progress in REAL TIME at the point-of-care. Our nurses and therapists know immediately if a patient is improving or declining. This data enables us to make instant updates to the careplan to assure that outcomes are achieved.
