Needed Some Help - Patient needed partial assistance from another person to complete any activities.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |  |                       | patient will be responsible for managing treatment                                                                                                                                                                                                                                                                                   |                                  |  |
| Homebound status: Due to diagnosis of Constipation unspecified, the patient is experiencing decreased endurance and mobility, increasing the likelihood of falls. To safely leave their home, the patient needs assistance from another person and an assistive mobility device.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |                       |                                                                                                                                                                                                                                                                                                                                      |                                  |  |
| Clinical Condition Requiring Homecare: <p class="MsoNoSpacing">The patient is an 83-year-old female who resides in a single-family home with family support, including daughters who live on the same street and assist daily with ADLs and medical appointments. She was recently hospitalized for uncontrolled hypertension and initially declined home care services but later requested reinitiation after recognizing the need for support. Her past medical history includes hypertension, anxiety, obesity, hyperlipidemia, GERD, chronic pain, osteoarthritis, constipation, insomnia, TIA, right upper-extremity tremor, and a left MCA aneurysm requiring neurosurgical follow-up. The patient is full code, all medications are present in the home, and she was recommended an easy-to-chew diet, first-floor living setup, and use of an extended tub bench. She ambulates indoors with a walker or cane and one-person supervision, demonstrates impaired balance with a Tinetti score of 11/28, and requires supervision for transfers and stair negotiation; she declined second-floor activities. The patient is homebound due to the significant effort required to leave the home and increased fall risk. Skilled nursing services are recommended for disease process and medication education, along with skilled physical and occupational therapy to address decreased strength, balance, and functional mobility; the patient declined home health aide services at this time.</o:p></o:p></p> <p class="MsoNoSpacing"><o:p>&nbsp;</o:p></p> <p class="MsoNoSpacing">Date of Order<o:p></o:p></p> <p class="MsoNoSpacing">02/04/2026<br>Order<o:p></o:p></p> <p class="MsoNoSpacing">Physician Face-to-Face Date: 01/13/2026<br> Clinical Condition Requiring Home Care per Certifying Physician: SN disease management, Pt eval and treat, OT eval and treat HHA dx: Constipation unspecified<br> Homebound Status per Certifying Physician: patient requires another person or medical equipment such as crutches, a walker, or a wheelchair to leave home<o:p></o:p></p> <p class="MsoNoSpacing"><br> 1 - SOC - SN Notes: <br> PT Eval Notes:<o:p></o:p></p> <p class="MsoNoSpacing">Physician:<span style="font-size: 10.5pt; background-image: initial; background-position: initial; background-size: initial; background-repeat: initial; background-attachment: initial; background-origin: initial; background-clip: initial;"></span>Marur, Surendra</p> |  |                       |                                                                                                                                                                                                                                                                                                                                      |                                  |  |
