| Homebound status: After undergoing Right Total Hip Replacement surgery, the patient is experiencing decreased endurance and mobility, increasing the likelihood of falls. To safely leave their home, the patient needs assistance from another person and an assistive mobility device.                                                           |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |  |                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |                       |                      |  |                 |  |
| Clinical Condition Requiring Homecare:                                                                                                                                                                                                                                                                                                             |  |  | <p>&lt;p class="MsoNoSpacing"&gt;The patient is an 82-year-old female with a past medical history significant for hypertension, type 2 diabetes mellitus, hyperlipidemia, GERD, and malignant neoplasm of the left breast, status post right total hip replacement. Postoperative dressing removal is scheduled in seven days, and the surgical site is currently covered with a Mepilex dressing. The patient reported nausea after taking oxycodone and contacted her surgeon, who discontinued the medication and increased ibuprofen from 600 mg to 800 mg every eight hours as needed for pain control. Vital signs were within normal limits, and respirations were even and unlabored. The patient ambulates with a rolling walker and presents with postoperative pain and edema. She lives with her husband and has a supportive daughter who resides nearby. Education was provided regarding medication compliance, ice application, infection prevention, and proper hand hygiene. Therapeutic exercises were performed, including heel slides, assisted lower-extremity abduction/adduction, long arc quads in sitting, and standing exercises such as marching and heel raises. The patient was also instructed on safe use of the rolling walker with emphasis on heel-to-toe gait pattern and proper ice application.&lt;/p&gt;&lt;p&gt;&lt;/p&gt;&lt;p&gt;&amp;nbsp;&lt;/p&gt;&lt;p class="MsoNoSpacing"&gt;Date of Order&lt;/p&gt;&lt;p&gt;&lt;p class="MsoNoSpacing"&gt;02/04/2026&lt;br&gt; Physician Face-to-Face Date: 01/14/2026&lt;br&gt; Clinical Condition Requiring Home Care per Certifying Physician: SN-pain control PT-eval &amp; treat due to Right Total Hip Replacement surgery&lt;br&gt; Homebound Status per Certifying Physician: patient requires another person or medical equipment such as crutches, a walker, or a wheelchair to leave home&lt;/p&gt;&lt;p&gt;&lt;p class="MsoNoSpacing"&gt;&lt;br&gt; 1 - SOC - SN Notes:&lt;span style="font-size: 10.5pt; background-image: initial; background-position: initial; background-size: initial; background-repeat: initial; background-attachment: initial; background-origin: initial; background-clip: initial;"&gt;&lt;/p&gt;&lt;p&gt;&lt;p class="MsoNoSpacing"&gt;PT Eval Notes: &lt;/p&gt;&lt;p&gt;&lt;p class="MsoNoSpacing"&gt;Physician: Huang, James&lt;/p&gt;</p> |  |  |                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |                       |                      |  |                 |  |

| HOSPITALIZATION RISKS: 7. Currently taking 5 or more medications, 8. Currently reports exhaustion, 9. Other risk(s) not listed in 1- 8                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |                       | patient/caregiver recalls                                                                                                                                                                                   |                                 |  |
| STANDING ORDERS: infection control: hygiene, proper hand washing; advance directive: plan if patient is unable to make healthcare decisions ; fall precautions: wear sensible shoes, remove home hazards, living space adequately lit, assistive devices prn; emergency preparedness: plan for prn evacuation, resumption of home health visits; Assess the patient's incision on post op day 7 and the nurse or physical therapist will remove aquacel dressing leaving OTA; if incision is draining educate pt/pcg on cleaning with normal saline and covering with dry gauze daily and as needed. Assess/Instruct Pt/Pcg: Ice to ____ x 20 minutes each hour while awake. If cold machine ordered apply 20 minutes on and 20 minutes off for 3-4 times a day. Assess/Instruct all body systems/vital signs/complications, Blood Pressure; systolic is greater than 169 mm Hg or less than 90 mm Hg; diastolic is greater than 100 mm Hg or less than 55 mm Hg, Clinician to assess comorbidities and report changes in condition to the patient's physician, Pain Rating is greater than 6 on 0-10 scale, Pulse is greater than 110 or less than 50, Respirations are greater than 22 or less than 8, SPO2: is less than 90 % at rest /with exertion, Temperature is greater than 100.5 F or less than 95.0 F, Pain Rating is greater than 6 on 0-10 scale Implement Fall Prevention Program, Instruct and educate the patient/PCG on wearing compression stockings for the next 4 weeks per discharge instructions. Instruct the pt/PCG on using the incentive spirometer 10 times every 2 hour while awake. Provide education content at patient's level of health literacy. Assess/Instruct Pt/Pcg: Safety measures to prevent injury. Assess: Musculoskeletal status. Teach Pt/Pcg to maintain appropriate wt bearing status as ordered by MD, total joint replacement precautions as applicable, Safe stair climbing skills, Safe, effective use of adaptive/assist device Assess/Instruct Pt/Pcg: Pain management measures; assess pain level, pain medication, rest, body alignment, ROM, meditation, massage. Pt/Pcg educated in pain management techniques including positioning and relaxation techniques Instruct Pt/Pcg: Medication actions, uses, frequency, dose, side effects, interactions of all new/change meds, Provide medication education,. Assess/Instruct Pt/Pcg: Safety measures to prevent injury, Therapeutic Exercise, Transfer Training Monitor surgical wound for s/s of infection, educate on s/s of concern and infection prevention to promote wound healing. |  |                       | * how to achieve wound healing including cleaning and dressing wound                                                                                                                                        |                                 |  |
| ; Skin Preservation: Measures to prevent skin breakdown; pressure relief, incontinence care, nutrition, hydration ; Pain: Pain management measures; pain medication, rest, body alignment, ROM, meditation, massage ; Medications: Medication actions, uses, frequency, dose, interactions of all new/change meds Advance Directive:Durable power of attorney for health care/Medical power of attorney                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |                       | * position changes                                                                                                                                                                                          |                                 |  |
| PROBLEMS IDENTIFIED ON ASSESSMENT: M2020 - Oral Med Management, M1033 - Exhaustion, M1400 - Dyspnea, abnormal blood pressure, abnormal BS < 70/140 > mg/dL, nausea/vomiting, limited strength, Pain Interference with ADLs, balance deficit, swell/redness surround. skin, #1 - Non-Observable Surgical Wound - Anterior Right Hip - Right hip replacement surgery                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |                       | * skin care                                                                                                                                                                                                 |                                 |  |
| PROCEDURES: physician-ordered wound care: #1 - Non-Observable Surgical Wound - Anterior Right Hip - Right hip replacement surgery: Remove Mepilex dressing on the 7th day post op and LOTA; otherwise, cover with a gauze dressing if drainage occurs., cough/deep breathing exercises, incentive spirometer                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |                       | * diet modification                                                                                                                                                                                         |                                 |  |
| TEACH PATIENT/CAREGIVER: * lifestyle modifications to manage respiratory condition including diet changes and regular exercise strategies to control shortness of breath home remedies to keep lungs healthy, related medicatio, * how to maintain a diary to monitor effective and non-effective pain relief including documenting time of pain, rating, precipitating events, medications, treatments, and what works best to relieve pain teach relaxatio, * how to achieve wound healing including cleaning and dressing wound position changes skin care diet modification record wound measurements, related medication(s) purpose, schedule, * strategies to minimize fatigue and exhaustion including work simplification energy conservation lifestyle changes diet, related medication(s) purpose, schedule, patient self-administers medications as prescribed, related medication(s) purpose, schedule                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |                       | * record wound measurements                                                                                                                                                                                 |                                 |  |
