| Homebound status: After undergoing Endoscopic resection, the patient is experiencing decreased endurance and mobility, increasing the likelihood of falls. To safely leave their home, the patient needs assistance from another person and an assistive mobility device.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |                                                           |                                                                                                                                                                                                                                                                                                                                                            |                                 |  |
| Clinical Condition <div><span style="font-size: 14px;">The patient is a 78-year-old male admitted to home health services following surgical resection of an adamantinomatous Requiring Homecare:craniopharyngioma performed via endoscopic approach. His past medical history is significant for <mh class="chrome-extension-FindManyStrings chrome-extension-FindManyStrings-style-12 CE-FMS-diabetes">diabetes</mh> mellitus, <mh class="chrome-extension-FindManyStrings chrome-extension-FindManyStrings-style-6 CE-FMS-hypertension">hypertension</mh>, hypothyroidism, and the recently treated craniopharyngioma. Prior to surgery, the patient experienced progressive neurological symptoms including left greater than right sensorineural hearing loss, worsening peripheral vision, memory impairment, gait instability, and severe fatigue, which prompted further evaluation and surgical intervention. During the home health assessment, the patient was observed to be alert and oriented to person and place but demonstrated mild cognitive impairment, as he was unable to recall his home address during the interview and required verbal cues for orientation to time. The patient denied pain at the time of assessment. Respiratory evaluation revealed lungs clear to auscultation bilaterally. Gastrointestinal assessment showed active bowel sounds in all quadrants, and the patient reported his last bowel movement occurred on Monday. Cardiovascular and peripheral assessment revealed palpable peripheral pulses, normal capillary refill, and no edema present in the extremities. Examination of the surgical site revealed a well-approximated incision on the anterior left scalp measuring approximately 24.5 cm in length with sutures intact. A smaller laparoscopic closure measuring approximately 0.5 cm was noted posterior to the primary incision. The surgical sites appeared clean with appropriate approximation and no immediate signs of infection noted at the time of assessment. The patient reported experiencing dizziness when changing positions quickly, which contributes to mild gait instability. During the visit, the patient was observed ambulating within the home with a slightly unsteady gait. Functionally, the patient requires supervision for most activities of daily living due to decreased balance and cognitive impairment. He requires verbal cueing and simple step-by-step instructions to complete both activities of daily living and instrumental activities of daily living safely. The patient is independent with toilet transfers but requires supervision during showering due to balance deficits and increased fall risk. Cognitive assessment indicates the patient is oriented to person and place but requires prompting for time orientation and assistance with following multi-step directions. Based on the current assessment findings, the patient would benefit from skilled occupational therapy services to address deficits in balance, cognition, and functional task sequencing. Interventions will focus on improving safety and independence with activities of daily living, enhancing balance and mobility, and strengthening the patient's ability to follow one- to two-step commands to complete functional tasks. Education will be provided to the patient and caregivers regarding fall prevention, safe mobility strategies, and techniques to support cognitive functioning within the home environment. The plan of care includes continued monitoring of neurological status and surgical site healing while promoting functional recovery and maximizing the patient's independence and safety at home.</span></div><div><span style="font-size: 14px;"><br></span></div><div><span style="font-size: 14px;">Date of Order</span></div><div><span style="font-size: 14px;"><br></span></div><div><span style="font-size: 14px;">Orders</span></div><div><span style="font-size: 14px;"><br></span></div><div><span style="font-size: 14px;">Physician Face-to-Face Date: 03/27/2026</span></div><div><span style="font-size: 14px;"><br></span></div><div><span style="font-size: 14px;">Clinical Condition Requiring Home Care per Certifying Physician: SN, PT, OT due to Endoscopic resection</span></div><div><span style="font-size: 14px;"><br></span></div><div><span style="font-size: 14px;">Homebound Status per Certifying Physician: patient requires another person or medical equipment such as crutches, a walker, or a wheelchair to leave home</span></div><div><span style="font-size: 14px;"><br></span></div><div><span style="font-size: 14px;"><br></span></div><div><span style="font-size: 14px;">1 - SOC - SN Notes: soc</span></div><div><span style="font-size: 14px;"><br></span></div><div><span style="font-size: 14px;">OT Eval Notes:</span></div><div><span style="font-size: 14px;"><br></span></div><div><span style="font-size: 14px;"><br></span></div><div><span style="font-size: 14px;">Physician</span></div><div><span style="font-size: 14px;"><br></span></div><div><span style="font-size: 14px;">Levine, Robert</span></div></div> |  |                                                           |                                                                                                                                                                                                                                                                                                                                                            |                                 |  |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |                                                           | 26. I certify/recertify that this patient is confined to his/her home and needs intermittent skilled nursing care, physical therapy and/or speech therapy or continues to need occupational therapy. The patient is under my care, and I have authorized the services on this plan of care and will periodically review the plan.<br>F2F date : 03/27/2026 |                                 |  |

| STANDING ORDERS: infection control: hygiene, proper hand washing; advance directive: plan if patient is unable to make healthcare decisions ; fall precautions: wear sensible shoes, remove home hazards, living space adequately lit, assistive devices prn; emergency preparedness: plan for prn evacuation, resumption of home health visits; Assess the patient's incision on post op day 7 and the nurse or physical therapist will remove aquacel dressing leaving OTA; if incision is draining educate pt/pcg on cleaning with normal saline and covering with dry gauze daily and as needed. Assess/Instruct Pt/Pcg: Ice to ____ x 20 minutes each hour while awake. If cold machine ordered apply 20 minutes on and 20 minutes off for 3-4 times a day. Assess/Instruct all body systems/vital signs/complications, Blood Pressure; systolic is greater than 169 mm Hg or less than 90 mm Hg; diastolic is greater than 100 mm Hg or less than 55 mm Hg, Clinician to assess comorbidities and report changes in condition to the patient's physician, Pain Rating is greater than 6 on 0-10 scale, Pulse is greater than 110 or less than 50, Respirations are greater than 22 or less than 8, <del>SpO2</del> 2: is less than 90 % at rest /with exertion, Temperature is greater than 100.5 F or less than 95.0 F, Pain Rating is greater than 6 on 0-10 scale Implement Fall Prevention Program, Instruct and educate the patient/PCG on wearing compression stockings for the next 4 weeks per discharge instructions. Instruct the pt/PCG on using the incentive spirometer 10 times every 2 hour while awake. Provide education content at patient's level of health literacy. Assess/Instruct Pt/Pcg: Safety measures to prevent injury. Assess: Musculoskeletal status. Teach Pt/Pcg to maintain appropriate wt bearing status as ordered by MD, total joint replacement precautions as applicable, Safe stair climbing skills, Safe, effective use of adaptive/assist device Assess/Instruct Pt/Pcg: Pain management measures; assess pain level, pain medication, rest, body alignment, ROM, meditation, massage. Pt/Pcg educated in pain management techniques including positioning and relaxation techniques Instruct Pt/Pcg: Medication actions, uses, frequency, dose, side effects, interactions of all new/change meds, Provide medication education,. Assess/Instruct Pt/Pcg: Safety measures to prevent injury, Therapeutic Exercise, Transfer Training Monitor surgical wound for s/s of infection, educate on s/s of concern and infection prevention to promote wound healing. |                       | patient/caregiver recalls<br>* how to keep home safe for patient with vision loss including eliminating hazards<br>* enhancing lighting<br>* using mechanical aids                                                                                                                               |                       |                      |
| ; Skin Preservation: Measures to prevent skin breakdown; pressure relief, incontinence care, nutrition, hydration ; Pain: Pain management measures; pain medication, rest, body alignment, ROM, meditation, massage ; Medications: Medication actions, uses, frequency, dose, interactions of all new/change meds Advance Directive:Living Will                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                       | patient self-administers medications as prescribed<br>* recalls related medication(s) purpose, schedule                                                                                                                                                                                          |                       |                      |
| PROBLEMS IDENTIFIED ON ASSESSMENT: M1700 - Cognition, M2020 - Oral Med Management, M2102f - Patient Supervision, M2102d - Caregiver Performs Treatment, M1400 - Dyspnea, balance deficit, weak hand grips, B1000 - Vision Deficit, hair loss, #1 - Observable Surgical Wound - Other - Left anterior scalp incision - Clean dry and well approximated with sutures., #2 - Observable Surgical Wound - Other - Left anterior scalp incision - Clean dry and intact.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                       | patient is adequately supervised<br><br>caregiver performs medical/rehabilitation treatments with adequate competence                                                                                                                                                                            |                       |                      |
| PROCEDURES: physician-ordered wound care: #2 - Observable Surgical Wound - Other - Left anterior scalp incision - Clean dry and intact., physician-ordered wound care: #1 - Observable Surgical Wound - Other - Left anterior scalp incision - Clean dry and well approximated with sutures., cough/deep breathing exercises, incentive spirometer, coordinate/arrange caregiver support to prevent caregiver physical, emotional and mental exhaustion                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                       |                                                                                                                                                                                                                                                                                                  |                       |                      |
| TEACH PATIENT/CAREGIVER: * lifestyle modifications to manage respiratory condition including diet changes and regular exercise strategies to control shortness of breath home remedies to keep lungs healthy, related medication(s) purpose, schedule, * how to keep home safe for patient with dementia coping strategies for the caregiver*, related medication(s) purpose, schedule, * how to achieve wound healing including cleaning and dressing wound position changes skin care diet modification record wound measurements, related medication(s) purpose, schedule, * how to keep home safe for patient with vision loss including eliminating hazards enhancing lighting using mechanical aids, patient self-administers medications as prescribed, related medication(s) purpose, schedule, patient is adequately supervised, caregiver performs medical/rehabilitation treatments with adequate competence                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                       |                                                                                                                                                                                                                                                                                                  |                       |                      |
