Homebound status: Due to diagnosis of Encounter for other orthopedic aftercare, the patient is experiencing decreased endurance and mobility, increasing the likelihood of falls. To safely leave their home, the patient needs assistance from another person and an assistive mobility device					
Clinical Condition Requiring Homecare: <p class="MsoNoSpacing">Patient is a 67-year-old male s/p right ankle fusion on 4/21/26 who returned home the same day. Upon arrival home, patient was unable to negotiate the 3 garage steps to enter the home, requiring EMS assistance. PT SOC/admission completed with consents obtained. Medication reconciliation, patient and home safety assessment, and review of patient handbook were completed. PT plan of care was discussed and developed with patient and primary caregiver, both in agreement. Patient lives in a single-family home with spouse and has family available at all times to assist as needed. PMH includes multiple right ankle injuries/reinjuries, right ankle fusion, neuropathy without diabetes, left TKR approximately 6 years ago, gout managed with allopurinol, use of cane/walker since March 2026, and one mechanical fall last year. Patient reports numbness in bilateral hands and feet, greater in feet, and difficulty negotiating stairs and carrying heavy objects over the past 6 months. Patient remains non-weight-bearing to the RLE for 12 weeks with cast changes every 2 weeks. Current deficits include right ankle pain, decreased BLE strength, impaired functional mobility, difficulty with transfers and stair negotiation, unsteady gait, decreased balance, decreased safety awareness, and increased fall risk. Patient currently requires setup to minimal assistance with bathing and dressing. Skilled PT and OT services are medically necessary to improve strength, mobility, transfers, gait, balance, ADL performance, and safety awareness to restore independence and prevent falls, further functional decline, and loss of independence. Patient to receive home PT beginning 4/27/26 at frequency of 2w1, 1w7, with all future PT visits assigned to PTA Foster. Patient to follow up with Dr. Clifford Jeng on 5/4/26, and MD notified that admission was completed.</o:p></o:p></p> <p class="MsoNoSpacing">Date of Order<o:p></o:p></p> <p class="MsoNoSpacing">04/27/2026 Order<o:p></o:p></p> <p class="MsoNoSpacing">Physician Face-to-Face Date: 04/21/2026 Clinical Condition Requiring Home Care per Certifying Physician: PT eval and treat OT eval and treat DX: Encounter for other orthopedic aftercare Homebound Status per Certifying Physician: patient requires another person or medical equipment such as crutches, a walker, or a wheelchair to leave home<o:p></o:p></p> <p class="MsoNoSpacing"> 1 - SOC - PT Notes:<o:p></o:p></p> <p class="MsoNoSpacing">OT Eval Notes:<o:p></o:p></p> <p class="MsoNoSpacing">Physician:Jeng, Clifford</p>
