| Clinical Condition - Home Care Referral ordered 08/11/2026 after face-to-face encounter. Order identifies pyelonephritis and sepsis and documents difficulty leaving home for required<br>Requiring Homecare: medical services. - Recent hospitalization began 08/09/2026. Therapy documentation lists severe sepsis as the reason for hospitalization and also notes shortness of breath and confusion. During hospitalization, the patient was evaluated by PT/OT for fall risk, mobility, cognition, and self-care, PT documented functional mobility with a front-wheeled walker but recommended 24-hour supervision because of cognitive impairment. OT recommended home care OT and stated the patient would benefit from HHC OT/PT for safety training and home-safety evaluation. (orders in referral only showed SN)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |  |                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                      |  |
